

LOCKN-CART

Specification Sheet for CPN Compliance

The LockN-Cart is designed to hold the complete ergonomic safety ladder system for each aircraft.

Specifications

Clyde Machines 15F3500 5' x 10' airline baggage cart base with 8,000 lb. capacity.

- Base topped with structural steel rack to hold LockNClimb ladders.
- Ladders fit neatly in their allocated compartments or on the racks to prevent damage when not in use.
- Rolls easily, 3-inch standard pintel hook allows for towing behind ramp and hanger service vehicles.
- Small footprint allows for convenient storage.
- Total weight 1200 lbs.
- Recommended for use to hold LockN-Climb ergonomic ladder packages that have been specifically designed to service all types of commercial, corporate and private aircraft located at any MRO or FBO facility around the world.

The LockN-Cart can be enclosed with protective tarps.
