

LOCKN-CART®

LOCKNCART3 Line Equipment Organization System

The LockNCart3 line tool organization system utilizes color coding so line technicians can keep equipment where it belongs by gate and concourse.

The LockNCart3 stores line equipment, and reduces gate clutter that can cause accidents.

Advantages of the LOCKNCART3

- 84"long x 40"wide x 60"tall.
- Tubular steel construction.
- Painted durable zone-related colors.
- Line service tools fit in specially designed compartments.
- Rolls easily on flat-free rubber tires.
- Small footprint allows for convenient storage.
- Protects and reduces damage to valuable assets.
- Facilitates inventory control.
- Cart keeps equipment off the tarmac during inclement weather.
- Protects employees from running over chocks and losing control of tugs.
- 100% made in the U.S.A.

Ladders can be powder coated for extra charge to correspond to gate or terminal to facilitate storage and inventory control.

LockNCart3 carries the 5LNCGPU ladder for handling of the GPU cord on the Boeing 757, 767, 777, 787, Airbus 320 and the MD88 aircraft.

Made one at a time by craftsmen in the U.S.A.
